

Life Ambassadors of Texas

Dear Affiliates,

Life Ambassadors of Texas exists to provide advocacy and educational support for pregnancy centers serving women and families. This mission remains our steady focus.

As many of you are aware, conversations across the national pro-life movement are growing around incrementalism, equal protection, and differing legal approaches to abortion. Because questions have arisen, we want to briefly clarify LAT's role.

Life Ambassadors of Texas is not an abolitionist organization, and we do not align with any approach that would criminalize women who have abortions. LAT's official positions are established through formal board action and communicated through LAT channels.

LAT's role is to foster unity, provide education, and create respectful spaces for dialogue while remaining focused on saving lives. Unity does not require uniformity. We believe pregnancy centers can stand shoulder to shoulder in our shared mission while holding differing viewpoints. What unites us is an unwavering commitment to protect preborn children, to love and serve women in crisis, and to proclaim the gospel of Jesus Christ.

We are here for you. If you have questions, concerns, or would like to continue the conversation, our contact information is below. Our desire is to listen to you, support you, and serve you well.

God is doing beautiful things through pregnancy centers across Texas, and it is our honor to stand with you in this vital work.

With gratitude,
Life Ambassadors of Texas, Board of Directors
